Feedback:

My grand children came from Indore for 3 weeks holidays. Last year I gave musical instrument training. This year I thought of tuition in general subjects. But after seeing your advertisement in Annanagar Times. I decided to give them training in handwriting.

I find Rorito Writewiz' method of training is good and systematic. It needs a lot of patience to teach some children as they do not concentrate. But you are motivating the children and make them interested in the training. Another aspect I noticed is the individual attention given to each child. That is more important. I am happy I sent my grand children to Rorito Writewiz and the time and money spent is worthwhile. Keep it up.
