

## NCF 2023, NEP 2020 and Handwriting in Your School

How Writewiz Supports Your Students and Teachers

### 1. What is NCF 2023?

NCF 2023 means National Curriculum Framework 2023. It is a guide from the Government of India on what children should learn, how teaching should happen, and how schools should assess and report progress. It follows the ideas of NEP 2020 (National Education Policy 2020).

### 2. What is 5+3+3+4?

NCF says that school life from age 3 to 18 has four stages:

Stage	Age (about)	Classes	Usual school name
Foundational	3–8 years	Nursery, LKG, UKG, Class 1, Class 2	Pre-KG / KG / early primary
Preparatory	8–11 years	Class 3, 4, 5	Primary
Middle	11–14 years	Class 6, 7, 8	Middle school
Secondary	14–18 years	Class 9, 10, 11, 12	High school / Higher secondary

These are the same classes we already know, but now grouped in a new way.

### 3. What does NCF say about writing and handwriting?

NCF 2023 and NEP 2020 say that children must:

- Build strong hand control and fine motor skills in the early years.
- Learn to write letters and numbers clearly in the Foundational Stage.
- Use writing in all subjects, not only in language periods.
- Develop the habit of neat, organised written work in notebooks.
- Show progress through samples of work and portfolios, not only marks.

Writing is seen as part of full learning, not just a small side activity.

### 4. Why is this important for your school?

When parents, inspectors or management ask questions like:

- “How does your school follow NEP 2020 and NCF 2023?”
- “How do you build handwriting and written presentation?”

You need a clear answer.

Good handwriting and clear written work help your school to:

- Improve exam performance.
- Make checking easier and faster for teachers.
- Show visible progress in students' notebooks and answer sheets.
- Build a strong image of the school in the community.

## 5. How Writewiz fits into NCF 2023

Writewiz is a handwriting curriculum for schools. It supports children from the Foundational Stage up to Board exams.

### 5.1 Foundational Stage (Nursery–Class 2)

- Hold the pencil correctly.
- Sit properly and place the paper well.
- Practise big strokes and fine finger movement.
- Move from patterns to letters, words and numbers.
- Write on 4-line, then 2-line, then single-line pages.

This matches NCF focus on fine motor skills and early writing.

### 5.2 Preparatory and Middle (Class 3–8)

- Write sentences and paragraphs with proper spacing.
- Keep notebooks neat with margins and headings.
- Lay out sums, diagrams and maps clearly.
- Build writing speed and stamina for classwork and tests.

This matches NCF focus on using writing in all subjects and keeping work organised.

### 5.3 Secondary (Class 9–10)

- Write faster without letting handwriting break down.
- Plan the answer sheet with margins and sections.
- Present theorems, proofs, equations and essays clearly.

This supports NCF and board expectations in high-stakes exams.

## 6. How Writewiz supports your teachers

NCF and NEP talk about strong teacher support. Writewiz helps by:

- Training in posture, grip, letter formation and correction methods.
- Ready-made student modules for each class.
- Classroom visits and book reviews to guide teachers.
- Simple reports that you can use in meetings and planning.

Teachers do not have to invent their own method. They follow one clear system across the school.

## 7. What your school will see with Writewiz

- Neater notebooks and answer sheets.
- Better speed in writing tests and exams.
- Less stress for teachers when reading and correcting work.
- Parents who can see improvement with their own eyes.
- A clear story to tell for NEP 2020 and NCF 2023.

## 8. How this helps you talk about NCF and NEP

When someone asks:

- “What are you doing about handwriting under NCF 2023?”

you can say:

- “We run the Writewiz handwriting curriculum for schools.”
- “It supports our students from Foundational Stage to Secondary Stage.”
- “We have books, reports and samples to show progress in writing and presentation.”

This gives you a simple and confident answer, without needing to read the full NCF document.
